**PRESENTATIONS**

A. Requests to speak to the Board of School Directors

Requests to Speak

Geneva Aulenbach of Womelsdorf and the parent of a sophomore student, expressed a concern about language in the Program of Studies regarding sophomores taking AP courses. Sophomores do not get the same weighted credit for taking AP courses as do juniors and seniors, and she asked that consideration be given to changing procedures so all students are treated the same.

Sophomore Ben Aulenbach of Womelsdorf expressed a concern that, because of procedures currently in place regarding credit for weighted courses, sophomore students are only competing against other sophomores. He feels that students should not be discouraged from taking challenging classes, and competition provides for self-improvement. He asked that the weighted course policy be changed so that all students can receive the same benefits from taking AP courses.

Jennifer Davies, Marion Township, expressed concerns about the location of her child's bus stop and asked to have a traffic study done to address visibility issues and the overall safety of

the bus stop location.

- B. Adelle Schade, anatomy and physiology teacher at the high school, gave an impressive overview of the histology program and the efforts that she and her students have made to contact hospitals and research labs asking for donated materials or equipment and the overwhelming responses received. She plans to invite collaborators and business contacts to a spring Open House to thank them for contributing to these projects. Regarding the 3Dprinter, Conrad Weiser has been selected to pilot it and walk through the manual. The only cost involved would be repair costs if we abused or broke the equipment.
